What we produce

Customized solutions for professional appliances

Motors and pumps engineered for efficient, quiet and reliable performance across key professional kitchen appliances such as commercial dishwashers, ovens and food processors.

High efficiency, reliable and low noise motors for professional washing machines.

High performance motors and pumps for disinfection machines used in hospitals, laboratories and dental clinics.

Global coverage. Local excellence.

We serve professionals, from OEMs and manufacturers to engineers, who need reliable technical solutions worldwide.

Complete and precise portfolio for the whole market.
