

### 1. General

Because of the request from customer, Embraco has verified reliability of FMFT413U model designed for L/MBP operating envelope and operating with propane refrigerant R290.

### 2. Declaration

Based on the positive results from reliability tests which meet criteria of internal approval, Embraco allows to extend operating envelope of condensing temperature from 35°C to 10°C for FMFT413U L/MBP R290 model.
